SUMMARY

Software Engineer with 5+ years of expertise in architecting enterprise-level web solutions, WordPress plugins with 100K+ combined active installations. Experienced in leading development teams using Agile methodologies while implementing robust CI/CD workflows using GitHub Actions and Docker containerization. Advanced proficiency in full-stack development, specializing in backend technologies including PHP frameworks (Symfony, Laravel), Python, C/C++, Node.js/Express.js. Demonstrated expertise in WordPress core development, WooCommerce solutions, custom RESTful APIs development and integrations, payment gateway integration, and database optimization. Strong command of TypeScript, MySQL, Git, OAuth.

EXPERIENCE

Software Engineer L2
Code Rex   **July 2024 – Present, Dhaka, Bangladesh**

· Led a team of 5 developers in developing and maintaining a suite of WordPress plugins, with 2000K+ all-time downloads.
· Architected and launched 3 premium WordPress plugins generating over $100K annual recurring revenue through direct sales.
· Improved plugin performance and compatibility across major WordPress versions (5.x – 6.x).
· Implemented automated testing and deployment pipelines reducing release cycles from 2 weeks to 3 days.
· Optimized freemium conversion rates from 2% to 5% through strategic feature implementation and UX improvements.

Software Engineer L1
Code Rex   **August 2022 – June 2024, Dhaka, Bangladesh**

· Spearheaded development of Product Feed Manager for WooCommerce plugin, growing active installations from 2K to 15K+ in 12 months.
· Developed custom WooCommerce functionalities including product feed generation and cart recovery systems, processing 100K+ products daily.
· Integrated multiple third-party APIs (Google Content, Facebook Graph, eBay) with 99.9% uptime.
· Optimized database queries for high-traffic stores, reducing load times by 40% for stores with 50K+ products.
· Contributed to WordPress Core 6.4 and maintained 100% compatibility with major WordPress releases.

Junior Software Engineer
Code Rex   **December 2020 – July 2022, Dhaka, Bangladesh**

· Developed custom WordPress theme components and plugin features, resolving 100+ bug tickets with 95% client satisfaction.
· Built responsive UI elements using JavaScript and SASS, improving mobile performance by 30% across 10+ client sites.
· Collaborated with senior developers on plugin development, contributing to 3 major version releases.

EDUCATION

Bachelor of Science in Computer Science & Engineering
United International University · Dhaka, Bangladesh · 2021

CERTIFICATIONS

Building RESTful APIs with Node.js and Express
LinkedIn · 2024

Intermediate Python for Data Science
DataCamp · 2019

Web Application Development – PHP
BASIS institute of Technology Management · 2017

SKILLS

Programming Languages: PHP, TypeScript, Python, Java, C, C++
Frontend Technologies: React.js, HTML5, CSS3, TailwindCSS
Backend & APIs: Node.js, Express.js, RESTful APIs, MySQL, MongoDB
DevOps & Tools: Docker, CI/CD, Git, GitHub Actions
Other Technologies: OAuth, WebSockets, Payment Gateways
